

## **Indraprastha Gas Limited to set up CNG stations at Noida International Airport**

**National, 12 February, 2025:** Noida International Airport (NIA) has partnered with Indraprastha Gas Limited (IGL) to develop Compressed Natural Gas (CNG) infrastructure at the airport, reinforcing its commitment to sustainable and efficient transportation solutions. As part of the collaboration, IGL will establish two CNG stations—one in the west precinct and second one in the airside area—to cater to travelers, airport staff and partners.

IGL will be responsible for the development of the City Gas Distribution (CGD) network at Noida International Airport, ensuring seamless connectivity to and from the CNG stations. The partnership also includes the establishment of a pipeline infrastructure for the supply of piped natural gas (PNG) to various F&B outlets, lounges and kitchens in the terminal and ancillary airport buildings.

**Christoph Schnellmann, CEO, Noida International Airport**, said: *“Our collaboration with Indraprastha Gas Limited marks another step in our journey towards building a sustainable and future-ready airport. By integrating CNG infrastructure, we are providing cleaner fuel alternatives to airport users while supporting the broader transition to greener mobility in the region.”*

The initiative aligns with Noida International Airport’s vision of creating an environmentally responsible and energy-efficient airport, offering sustainable mobility solutions for passengers, employees, and partners.

In its first phase, with one runway and one terminal, the airport will have the capacity to handle 12 million passengers annually. Upon completion of the fourth phase, the airport will be equipped to manage 70 million passengers per year, making it a major hub for the region.

### **About Noida International Airport**

**Noida International Airport (IATA code - DXN)** will connect the greater Delhi area and Western Uttar Pradesh with other cities in India and the world. This world-class airport will combine Swiss efficiency and Indian hospitality to offer rich experiences and comprehensive commercial attractions and services to its passengers. NIA is committed to an ambitious net-zero emissions goal supported by sustainable design and operations principles.

**Yamuna International Airport Private Limited (YIAPL)** was established for the development, construction and operation of the greenfield project - the Noida International Airport. The company, a 100% subsidiary of Zurich Airport International AG, is responsible for the implementation of the public-private partnership project in close partnership with the Government of Uttar Pradesh and the Government of India. The concession period for Noida International Airport commenced on October 01, 2021, and will run for 40 years. At its opening, the airport will feature one runway and one terminal and handle a capacity of 12 million passengers – with the potential for further development in additional construction phases.
