

Noida International Airport Partners with Rapido to Strengthen Last-Mile Connectivity

Strategic collaboration to offer passengers app-based mobility services for seamless ground transport

New Delhi, August 06, 2025: Noida International Airport (NIA) recently announced a partnership with Rapido, India's leading ridesharing platform. This strategic collaboration aims to provide passengers with seamless, efficient, and diverse last-mile mobility solutions directly from the airport premises. This initiative is a key part of NIA's broader commitment to offering reliable, tech-enabled transport services, connecting air travel with convenient ground options.

As part of this partnership, Rapido will operate **dedicated pick-up zones** within the airport, supported by on-ground assistance and clear way-finding guides. This will help riders navigate effortlessly from the airport's arrival gates to their Rapido pick-up points. To further enhance convenience and reduce estimated arrival times (ETAs) for riders, Rapido driver-partners will have designated parking spaces.

Passengers selecting Rapido services at NIA can look forward to:

- Real-time ride tracking and estimated arrival times via the Rapido mobile app
- Cashless payment options for added convenience and transparency
- Access to driver and vehicle details, along with an in-app emergency/SOS button for enhanced safety
- Multiple ride categories, for different travel needs
- 24/7 availability, ensuring reliable transport at any hour, catering to all flight schedules

Christoph Schnellmann, CEO, Noida International Airport, said, *"As we gear up to welcome passengers, ensuring a smooth and stress-free journey beyond the terminal is essential to the overall travel experience we're building at Noida International Airport. Our partnership with Rapido is another step in this direction—enabling us to offer reliable, app-based mobility options that are accessible to all. Passengers will benefit from convenient, tech-enabled last-mile services that are well integrated into the airport ecosystem."*

Rajiv Bhyri AVP, Cabs at Rapido, said, *"We are pleased to partner with Noida International Airport to introduce Rapido's Airport Cab Services designed to offer passengers a seamless, tech-enabled transit experience right from the terminal. With dedicated pick-up zones, real-time tracking, cashless payments, and 24/7 availability, our platform ensures that travellers have access to dependable and efficient last-mile connectivity. Our SaaS-based model also enables more competitive fares for passengers while supporting better earnings for our driver-partners striking the right balance between affordability and sustainability."*

Additionally, beyond airport limits, Rapido continues to enhance everyday mobility by offering affordable, app-based options such as bike taxis and on-demand autos, which are tailored for both intra-city and inter-city travel.

In addition to its mobility services, Rapido is expanding its presence in the urban delivery sector with offerings such as Rapido Parcel (for courier delivery) and a dedicated food delivery platform. Both services feature transparent pricing models, which include flat fees and low commissions, providing value to both small businesses and everyday users.

This collaboration aligns with NIA's vision to become a truly multimodal transport hub. In addition to app-based cab services, the airport is actively working to offer a range of connectivity options to suit every traveler's needs, including private vehicles, public transportation, and other planned services.

With NIA on track to become a major aviation hub, making it easy for people to get to and from the airport is a key priority. We're working with government bodies and partners to improve road access and grow public transport options, so every journey is smooth, convenient, and adaptable to passengers' needs.

About Noida International Airport

Noida International Airport (IATA code - DXN) will connect the greater Delhi area and Western Uttar Pradesh with other cities in India and the world. This world-class airport will combine Swiss efficiency and Indian hospitality to offer rich experiences and comprehensive commercial attractions and services to its passengers. NIA is committed to an ambitious net-zero emissions goal supported by sustainable design and operations principles.

Yamuna International Airport Private Limited (YIAPL) was established for the development, construction and operation of the greenfield project - the Noida International Airport. The company, a 100% subsidiary of Zurich Airport International AG, is responsible for the implementation of the public-private partnership project in close partnership with the Government of Uttar Pradesh and the Government of India. The concession period for Noida International Airport commenced on October 01, 2021, and will run for 40 years. At its opening, the airport will feature one runway and one terminal and handle a capacity of 12 million passengers – with the potential for further development in additional construction phases.

About Rapido

Rapido, India's leading ridesharing platform and one of the country's youngest unicorns, is redefining mobility with its tech-driven, customer-focused approach. Since its inception in 2015, Rapido has created an integrated mobility ecosystem, providing bike taxis, auto-rickshaws, and cab services across more than 300+ cities. Facilitating over 4 million rides daily, Rapido is bridging last-mile connectivity gaps and making transportation more accessible, efficient, and affordable for millions. Beyond mobility, Rapido promotes economic empowerment, generating over 9 million job opportunities for gig workers throughout India. With a strong commitment to financial inclusivity and women's empowerment, the company nurtures safe, secure, and flexible livelihood opportunities, particularly for women in the mobility sector. Rapido is transforming shared mobility in India by expanding beyond metro areas into tier 2 and tier 3 regions—delivering innovation, affordability, and inclusivity at scale. As a pioneer in the industry, Rapido remains committed to enhancing the transportation experience while promoting social and economic progress nationwide.
