

## **Noida International Airport Expands End-to-End Travel Experience with redBus**

- *Industry-first service with direct connections between airports and towns via bus*
- *Boost to convenience and last mile connectivity across key destinations in North India*

**New Delhi, June 11, 2026:** Noida International Airport (NIA) today announced a strategic partnership with redBus, the world's largest online bus ticketing platform, to provide passengers with seamless access to intercity bus services directly from the airport. This is the first of its kind tie up between a bus mobility platform and airport in India, enhancing convenience, transparency and connectivity for consumers. The move supports NIA's vision of becoming a leading multimodal transport hub for Northern India.

In a huge boost to last mile connectivity, this partnership will enable connections for more than 20 direct intercity bus services from NIA to key destinations across North India, including Agra, Mathura, Lucknow, Dehradun and Chandigarh. Passengers will be able to conveniently book their journeys through the redBus platform to and from the airport, with access to a network of high-quality, air-conditioned buses operated by leading bus service providers.

Customers will be able to avail all redBus services including features such as GPS-enabled live tracking, digital ticketing and 24x7 customer support, ensuring a reliable and hassle-free travel bus experience directly after de-boarding from flights. To facilitate seamless transfers, there is a bus staging area - a dedicated space for the bus passengers to board and de-board at the airport, and on-ground support staff will be available to give passengers a smooth travel experience.

**Christoph Schnellmann, Vice Chairman, Noida International Airport said,** " *At Noida International Airport, we are designing every aspect of the passenger journey with convenience and connectivity in mind. Our partnership with redBus brings together trusted mobility solutions that enable passengers to seamlessly continue their journey beyond the airport. By integrating multiple transportation options directly into the airport experience, we are taking another important step towards building a truly multimodal transport hub for the region.*"

**Prakash Sangam, CEO, redBus,** said, " *The launch of Noida International Airport marks a significant milestone in strengthening India's aviation infrastructure in NCR and North India. We are delighted to partner with NIA to enable intercity bus connectivity right at the airport's doorstep ensuring that air travellers can seamlessly connect to and from destinations across the region in a comfortable, reliable and affordable manner. This collaboration reflects our commitment to bridging the last-mile gap and together, we look forward to setting a new benchmark for integrated, end-to-end travel experiences.*"

This initiative is part of NIA's broader vision to become a truly multimodal transport hub, providing a wide range of connectivity options to suit every traveler's needs. Seamless connectivity remains a key focus as NIA grows into a major regional hub. The airport is collaborating with the government and other relevant stakeholders to improve access for private vehicles and expand public transportation options. Together, these options will ensure that passengers can travel to and from the airport with ease, efficiency, and flexibility.

### **About Noida International Airport**

**Noida International Airport (IATA code - DXN)** will connect the greater Delhi area and Western Uttar Pradesh with other cities in India and the world. This world-class airport will combine Swiss efficiency and Indian hospitality to offer rich experiences and comprehensive commercial attractions and services to its passengers. NIA is committed to an ambitious net-zero emissions goal supported by sustainable design and operations principles.

**Yamuna International Airport Private Limited (YIAPL)** was established for the development, construction and operation of the greenfield project - the Noida International Airport. The company, a 100% subsidiary of Zurich Airport International AG, is responsible for the implementation of the public-private partnership project in close partnership with the Government of Uttar Pradesh and the Government of India. The concession period for Noida International Airport commenced on October 01, 2021, and will run for 40 years. At its opening, the airport will feature one runway and one terminal and handle a capacity of 12 million passengers – with the potential for further development in additional construction phases.

### **About redBus**

redBus is India and the world's largest online bus ticketing platform by volume of tickets sold. Founded in 2006 in India, redBus' intercity bus network connects close to 10,000 unique cities, towns and villages across 4.2 lakh unique routes. redBus works with more than 4500 private bus operators and multiple government establishments, including 26 major State Road Transport Corporations, to offer convenient and reliable travel bookings on its platforms.

redBus' global foray began when it launched operations in Singapore and Malaysia in 2015. It acquired a majority stake in Peru's Busportal (now redBus.Pe) in 2016, thereby entering markets of Peru and thereafter, Colombia. In 2018, it entered the Indonesian market. In 2023, redBus expanded its operations into Cambodia and Vietnam, further solidifying its global presence. redBus has cumulative sales of over 466 million bus tickets globally and a robust worldwide customer base of around 52 million users.

redBus is part of the MakeMyTrip group (Nasdaq: MMYT), which also includes [goibibo.com](http://goibibo.com) and is the largest travel aggregator in India with offerings across categories such as Flights, Hotels, Holiday Packages, etc. redBus offers solutions for all stakeholders in the ecosystem - consumers and operators - which serve the needs of bus sectors across geographies. redBus launched redRail in 2021, as a dedicated platform providing train ticketing booking and as an authorised partner of Indian Railway Catering & Tourism Corporation. redRail not only provides a seamless train ticket booking experience but also solves for information needs surrounding train travel. Other key offerings from redBus include Seat Seller, redPro, YourBus, revMax and rise.
