

## Noida International Airport to Welcome Passengers from 15<sup>th</sup> June 2026

**National, 01 May 2026:** Noida International Airport (NIA) announced today that commercial flight operations at the airport will commence from **15<sup>th</sup> June 2026**, opening a new gateway for passengers, airlines, and cargo operators in the National Capital Region and North India.

The start of services follows the inauguration of the airport by the Hon'ble Prime Minister and the receipt of approval for the **Aerodrome Security Program (ASP)** from the Bureau of Civil Aviation Security, which confirms that the airport's security framework, systems and operating procedures are in place in line with regulatory requirements, ahead of the launch of commercial services.

IndiGo will operate the first flight from Noida International Airport, marking the start of scheduled passenger services, followed shortly by Akasa Air and Air India Express. Further details on schedules, destinations, and passenger services will be shared in due course.

Developed to meet the growing demand for air travel, Noida International Airport combines modern terminal infrastructure, efficient operations and strong multimodal connectivity. The airport is designed to offer a smooth passenger journey while supporting airlines with reliable and cost-efficient operations.

The commencement of commercial operations also represents an important step in strengthening regional connectivity, supporting economic development, and creating new opportunities for tourism, trade, and investment across the wider region.

### **About Noida International Airport:**

**Noida International Airport** (IATA code - DXN) connects the greater Delhi area and Western Uttar Pradesh with other cities in India and the world. This world-class airport combines Swiss efficiency and Indian hospitality to offer rich experiences and comprehensive commercial attractions and services to its passengers. NIA is committed to an ambitious net zero emissions goal supported by sustainable design and operations principles.

**Yamuna International Airport Private Limited (YIAPL)** was established for the development, construction and operation of the greenfield project - the Noida International Airport. The company, a 100% subsidiary of Zurich Airport International AG, is responsible for the implementation of the public-private partnership project in close partnership with the Government of Uttar Pradesh and the Government of India. The concession period for Noida International Airport commenced on October 01, 2021, and will run for 40 years. The airport features one runway and one passenger terminal with a capacity to serve 12 million passengers annually. The airport's masterplan provides for further development over the duration of the concession to serve over 70 million passengers annually.
